
September Lookbook // 2021 with CBTV

Chapter 1 - September Lookbook // 2021

Overview

- Hey friends, it's Taryn from the video team. We've been busy bees here at Creativebug. We've moved to sunny Berkeley, California. We have a beautiful new lobby, and this elevator is nice, because we're on the third floor. We now have sweeping views outside our gigantic windows. (upbeat music) We're still setting things up, though. Here's Courtney, taking care of business, and Charlie, handling our waste management, Cabrina here is re-potting some of our many, many plants. Here's Stephanie helping to organize the archive. The archive is a magical room where we keep every project we've ever filmed. So many classes. Speaking of classes, we're also excited for our film studio. We even have an awesome new ceiling grid where we can hang all of our lights and cameras and help make our instructors look fabulous. Speaking of looking fabulous, it looks like there's already a shoot happening in the photo studio. This is how we get all those beautiful pictures showing you our new classes. Speaking of new classes, here's what we've got coming up: "Plant Talk with the Tender Gardener: How to Choose a House Plant." We've got "Jewelry Design with Scotchbonnet!: Working with a Bead Loom" to make this beautiful cuff. Our daily practice is the Lucky Star Quilt Along with Keaton Quilts. And we have a new "Slow TV" episode for you, all about fabric this time. But don't get too relaxed, Charlie. There's always making to do. See you next month. (upbeat music)
