

Personalized Dishes *with* Courtney Cerruti

In this short and sweet Valentine's class, Courtney teaches you how to make personalized dishware using plain ceramic pieces and porcelain pens. Courtney demonstrates how to adorn mugs and plates with Valentine's motifs—hearts, arrows, X's and O's—in a way that's sweet (but not too sweet). In fact, these lovely personalized dishes are sure to become year-round favorites for your loved ones. Once you have adorned your ceramics, you'll simply bake them in the oven to set the ink and then they're ready to wrap up and give to your sweetheart.
